Dear Parent/Carer,

We are trying to make sure that all parents and carers know about the important things that happen in our school. We like to do this in the easiest, most convenient, and up to date way for you.

As most of our parents and carers can access the Internet from a mobile phone, tablet or a computer, we already have a School Web Site (www.simms-cross.co.uk), and Twitter account (@simms_cross).

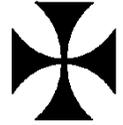

We would like to improve how we connect to you by using a simple App to send you important messages.

The App would be **FREE**, and very easy to install on your phone/tablet. We would send you full instructions on how to install it and if you have any problems, we can help, If you don't have access to the internet, or a mobile phone we will, of course, continue to send information and messages by letter.

On the next page are a few questions, which will help us to understand what you think about this new way of working with you. We have also given a space for you to add any suggestions about how we can improve the way we get information to you. Please return the form to your child's form teacher.

It will only take a few minutes to answer the questions and we would be very grateful for your time and help. If you have any questions please call the school.
